hello!

Danielle was born under the vibrant skies of Brazil, her journey however has led her to the picturesque landscapes of Potomac, MD.

A hopeless romantic with a penchant for timeless elegance, Danielle's lens tells the stories of love, joy, and the cherished moments that define our lives. Her artistic journey began in high school, where she discovered her love for the camera. Before immersing herself in the world of photography, Danielle graced the local beauty and bridal scene as a model, showcasing her beauty and easiness in front of many other photographers' cameras.
